# Speech Language Pathology

**Fraser Health** currently has an exciting opportunity for a **Speech Language Pathologist** in our **Public Health Department** located in the Fraser East community of Mission British Columbia.

Within Public Health, you will provide services to children (ages 0-5) who may have articulation difficulties, receptive and expressive language delays, or fluency concerns in our Early Intervention Program.

Fraser Health provides a dynamic team environment utilizing the most current practices and technology in health care. Speech-Language Pathologists provide evidence-based practice to patients. They have the opportunity to initiate change in the provision of new services, practices, and equipment.

**Build on your education and career experience as you:**

- Help preschool clients with hearing, communication and related disorders
- Participate in promotion of early intervention activities and prevention of communication and related disorders

**To join our team you have:**

- Graduation from an approved school of Speech Language Pathology
- Registration with the College of Speech and Hearing Health Professionals of BC.
- Valid BC Driver's License and vehicle for work related purposes

Work with an experienced and dedicated team and join our commitment to provide quality care to our clients/patients/residents. We invite you to find out why more than 95% of new employees recommend Fraser Health to their friends and family as a great place to work.
