---

Advantage SLP is looking for 1-2 more therapists to provide services to a primarily pediatric population. We are ideally needing someone available for after school and for weekend hours, and for community-based work, but there are also several clients who have daytime availability. Services can be provided in our office in Richmond, in the community, or possibly via teletherapy.

Ability to speak Mandarin and/or Cantonese is an asset. Preference to candidates who are also on the Registry of Autism Service Providers.

Successful candidates will start off part-time, but there are opportunities to build up to a full-time caseload if desired (usually takes a few months). Extended health and dental benefits can become available to those who invoice 20 billable hours per week.

Why work with Advantage SLP?

- amazing therapists and administrative support team
- flexibility of scheduling with services available 7 days per week
- wide variety of pediatric and adult clients: we work with individuals across the lifespan
- ability to provide individual and group-based treatment
- large supply of treatment and assessment materials
- opportunities for mentorship or supervision of RASP therapists
- opportunities for team building and collaboration
- great office environment in the heart of Steveston

\* Must be registered with the College of Speech and Hearing Health Professionals of BC.
